The President.

OFFICIAL BULLETIN.

Washington, Aug. 19, 8:30 a. m.—The President slept much of the night, and this morning he is more comfortable than yesterday.

The swelling of the right parotid gland has not increased since yesterday afternoon and he is now free from pain. Nutritive enemata are still given with success and liquid food has already this morning been swallowed and relished. Pulse 100, temperature 98.4, respiration 17.

Signed

J. J. WOODWARD,
ROBT. REYBURN,
FRANK HAMILTON.

SPITEFUL HAMMOND.

Washington, Aug. 19.—Dr. Agnew knew of the swelling of the gland before he left, but did not consider it of sufficient importance to detain him here. The swelling manifested itself last night and Agnew examined it.

Speaking of the criticism of Dr. Hammond of New York, Dr. Bliss said that Hammond applied twice by telegraph to be admitted into the President's case, and was refused both times. Hammond feels bitterly toward Barnes because he succeeded him as Surgeon General, and this accounts for Hammond's severe talk.

Executive Mansion, 11 a. m.—The President continues to do well as he partakes of nourishment frequently, and the quantity being gradually increased the stomach offers no resistance, and the attending surgeons express themselves very much gratified with the outlook. Inflammation of the right parotid gland is gradually subsiding.

POMERINE'S PERSISTENCE.

Dr. Bliss says Doctor Pomerine, of Ohio, who was surgeon of Gen. Garfield's regiment during the war, came here soon after the President was shot and asked to be admitted to the President's room to see the patient. Bliss replied that it could not possibly do the President any good to let Dr. Pomerine see him and might do harm, but promised Pomerine to submit his request to the other surgeons. He did so and they flatly refused to assent to permitting any visit from Pomerine. Bliss reported the decision to Pomerine a day or two later. Says Bliss: Dr. Pomerine went to the White House and went through the reception room up stairs and slipped into the President's room while his surgeons were all absent from the room. While Pomerine was beside the President talking to him, Dr. Reyburn entered the room and very promptly invited Pomerine to leave. Dr. Bliss said that Pomerine sneaked into the President's room after having been refused admission, and though he was turned out he has since assailed the President's surgeons.

HOPEFUL OUTLOOK.

The President is better this morning and his physicians say he has continued to improve, and they regard the swelling of the parotid gland as about conquered. The surgeons and all others at the White House feel very hopeful to-day. The quantity of nourishment administered is being steadily increased and the stomach retains and digests it. The President's bowels are now acting regularly and naturally.

Chicago, Aug. 19.—The Inter Ocean's Washington special says the symptoms continues encouraging. Pulse 106, temperature 98.8, respiration 17.

GETTING ON SPLENDIDLY.

Executive Mansion, 12:10 p. m.—Dr. Bliss, who just came from the President's room, in reply to a question of "How is the President?" said, "Oh, he is getting on splendidly! He experiences no pain from inflammation of the glands, the swelling having almost entirely subsided."

"You do not apprehend any further annoyance from the parotid gland then?"

"No sir."

"How is his pulse this morning, Doctor?"

"From 100 to 104 beats and comparatively firm. His temperature and respiration are about normal. The patient has taken to-day from fourteen to sixteen ounces of koumiss and milk gruel."

"Does he still relish the gruel?"

"Yes, he appears very fond of it."

"Do you expect to administer anything besides this?"

"We may give him something more later in the day."

"Will it be milk?"

"Oh, no, we cannot let him have raw milk yet."

"What do you think of his respiration being below normal?"

"Oh, that does not signify anything but extreme weakness."

A SANITARY MEASURE.

Executive Mansion, Aug. 19.—At the invitation of Col. Rockwell, the commissioner of public buildings and grounds, Col. Waring and his assistant from Newport, R. I., acknowledged experts in sanitary matters, are now in the city for the purpose of making a thorough examination of the sewerage and drainage of the Executive Mansion with a view of ascertaining what improvement is necessary to put the house in a perfect sanitary condition.

RENEWED HOPE.

The Washington midday bulletin shows a very favorable condition for the President, and has inspired renewed hope. Dr. Boynton, who came from the President's room at 1 o'clock, said he was better than he was early in the morning, and was steadily improving. The swelling of the gland has receded and now causes no pain, and the doctors now consider that the trouble is now virtually over. The President has taken more nourishment to-day, and his stomach grows stronger. It is believed that in several days more he can take solid food. At the White House a most hopeful feeling prevails.

OFFICIAL BULLETIN.

Executive Mansion, 12:30 p. m.—The President's condition has perceptibly improved during the last twenty-four hours. The parotid swelling is evidently diminishing and has not pained him since last night. He has taken to-day an increased quantity of liquid food by the mouth, which is relished and produces no gastric irritation. His pulse is now 106, temperature 98.8, respiration 17.

D. W. BLISS,
J. K. BARNES,
J. J. WOODWARD,
ROBT. REYBURN,
FRANK HAMILTON.

Executive Mansion, 2:30 p. m.—Dr. Hamilton left on the 2:30 train for New York.

Dr. Agnew is expected to arrive to-night.

SIXTEEN OUNCES OF KOUMISS AND GRUEL AND TWENTY OUNCES OF BEEF EXTRACT.

Dr. Bliss says the patient continues improving. To-day he has had twenty ounces of beef extract administered by means of enemata in addition to sixteen ounces of koumiss and milk gruel taken naturally.

OFFICIAL BULLETIN.

Executive Mansion, 6:30 p. m.—The President has been easy during the afternoon, and the favorable conditions reported in the last bulletin continue. The swollen parotid gland has not been painful. His temperature is the same and pulse rather less frequent than at this hour yesterday. Pulse, 106, temperature 100, respiration 10.

SYMPATHY FROM ONE OF EARTH'S DARK CORNERS.

Washington, Aug. 19.—The following communication was received from the Patriarch of the Armenians in Turkey:

The Providence which watches over the days of virtuous men in the service of free countries has saved the illustrious President of the United States from a cowardly attempt against his life. As a servant or minion of the church, who prays daily for all the chiefs of Christendom, I hasten to express to you my most filial sympathy. As a representative of the Armenians of Turkey I am happy to avail myself of this occasion, Mr. President, to be the channel of conveyance to you of the sentiments of the high admiration which my nation feels for the government and people of the United States, a government which realizes all the dreams of the friends of liberty and a people whose philanthropy obeys the highest precepts of religion and morality. Invoking the benediction of heaven upon you and upon the people whose destinies you so nobly rule, and praying the All Powerful to hold your precious life in his keeping, I have the honor to be, Mr. President, your humble servant in the Lord Jesus Christ.

(Signed) ARCHBISHOP NIKOS,
Armenian Patriarch.

A SCARE.

San Francisco, Aug. 19.—The Colonist says it is rumored that the cause which led to the quick despatch of H. M. S. Gannett for the Sandwich Islands Monday arose from the fact that telegraphic information received that it was the intention of the United States to gobble up Kalakaua's Kingdom. It is added that a flag ship is sailing toward Honolulu from the South American coast and that ships of other naval powers have been ordered to rendezvous there.

Washington Gossip.

THE PONCAS AND THE SIOUX.

Washington, Aug. 19.—The Sioux and the Ponca chiefs met the Secretary of the Interior and the Indian Commissioner to-day about the transfers of lands to the Poncas. Red Cloud, of the Sioux, said they would give each Ponca family 640 acres and each Ponca without family 60 acres, and that the Sioux regard the land as property belonging to the Poncas anyhow, because it was their former reservation and they left it unwillingly. Papers formally making the transfers were drawn up and signed.

Red Cloud asked about Sitting Bull, and Secretary Kirkwood replied that Sitting Bull was in charge of the War Department yet and that the Interior has no authority for him.

Red Cloud said that the Ogallalas, the Tologallalas and the Brules, who

surrendered with Sitting Bull, formerly belonged to Red Cloud's reservation and that he would like to have them back. The Secretary said he would assign the Ogallalas to Red Cloud and the Brules to White Thunder as soon as provisions and supplies for them can be sent to these agencies.

RELEASED.

Ex-Congressman Martin F. Conway, of Kansas, who shot Senator Pomeroy, and has been confined in the Insane Asylum here, has been released.

EVIDENTLY A CRAZY WOMAN.

Washington, Aug. 19.—Early this afternoon a young woman appeared at the entrance to the Executive Mansion grounds attired in a bathing suit and applied for admission, saying she must see the President immediately or he would be dead in an hour. She had in her possession a miniature saw and vial containing liquid. A curious crowd gathered around the female and one of the guards informed her she would have to go with him.

"What for?" she inquired.

"Why," said the guard, "don't you see what a sensation you are causing?"

"That is not my fault," she quickly responded. "You are a policeman, disperse the crowd!"

After demanding again to see the President and stating that she was just from Manhattan Beach and that her husband was a fireman in Brooklyn, she suffered the policeman to take her in charge.

MORE ABOUT HER.

The cranky woman at the White House was a handsome young woman and gave her name as Mary Louise Reminger, 554 Brooklyn. She said she came from Paris specially to cure the President. She was sent to the Government Insane Asylum. Under her bathing suit she wore the costume of a ballet dancer and variety actress. She was not violent.

He Expires His Crime on the Gallows.

Batavia, Aug. 19.—The execution of Chas. Stockley for the murder of John Walker on the 27th of April took place here to-day. Walker was plunging in his field when Stockley deliberately walked up and fired three shots at him, one with fatal effect. Stockley had been employed by Walker as farm hand, and had sought through Walker the marriage of his sixteen-year-old daughter Lizzie, but was refused both by the girl and her parents, and the only motive for the crime was revenge. Since the conviction the prisoner has feigned insanity, and at times he acted like a maniac.

Flames.

Victoria, B. C., Aug. 19.—Almost the entire town of Yale burned yesterday. The loss is very heavy; insurance light.

LATER.

San Francisco, Aug. 19.—A Victoria dispatch says the town of Yale is in flames. Nearly all the business houses, hotels, jail, court house and residences have been destroyed. The fire broke out in the Caledonia Hotel and swept everything before it. Later the fire crossed the street to Openheimer Bros. brick warehouse, which was the only fire proof building in town. It is now in flames. The stock of goods was very heavy and the insurance light. The loss will be great.

ANOTHER.

Chicago, Aug. 19.—The Inter Ocean's Big Rapids Michigan special says: A fire last night destroyed thirty-five buildings, comprising nearly the whole town of Alletton, Mich., on the New-aygo Railroad. Twenty families are homeless. Damage, sixty thousand dollars.

Transatlantic Transpirings.

THE LAND LEAGUE FUND.

London, Aug. 19.—In the Commons yesterday, Chief Secretary for Ireland, Foster, during a debate on a motion to go into "supply" stated that he had made an analysis of subscriptions to the fund of the Land League, with the following result: Total receipts this year, £10,705. Of this £4,800 was from the Chicago world. Other American subscriptions amount to £4,543, and there were from Great Britain £81 and from Ireland £163.

FRANCO-ENGLISH COMMERCIAL TREATY.

Paris, Aug. 19.—An official note published here to-day, after stating that France had no option but to break off negotiations with England for a new commercial treaty, concludes as follows: We hope nevertheless the disagreement is only temporary, and there is ample time to treat before the expiration of the old treaty in November, that a solution will be found in nature to satisfy the interests of the two great countries who have equal need of each other.

BAD BULL FIGHT.

Marselles, Aug. 19.—It now appears that the disaster attending the bull fight last Sunday resulted in the death of twenty-seven persons and the wounding of 300.

TRIOLED TUNIS.

Tunis, Aug. 19.—The country is in a most dangerous state, many hands of deserters and Arabs are collecting. Telegraph wires are cut in all directions.

Blacks vs. Whites.

Little Rock, Aug. 19.—At Morrilton, a small village fifty miles from this city, there is great excitement over the anticipated collision between colored and white citizens. The trouble originated about a negro abusing some white children. A day or two after the father of the children met the negro and gave him a terrible beating. A negro preacher took the part of the assaulted negro and feeling ran so high that the friends of either are ranging themselves on either side. Several strong fights occurred, more or less serious, but the determined stand of the officers prevented a fatal termination. The colored people threaten to burn the town. Citizens of Morrilton are here to-day for the purpose of asking the Governor to raise a military company at Morrilton to preserve the peace.

Boston Wool Market.

Boston, Aug. 19.—The wool market is firm and prices are well sustained with increased demand for fine and medium washed fleeces. Sales of Ohio and Pennsylvania have been 450,000 pounds. X and XX at 40¢42, XX and above 43. Very little desirable XX is to be had under 42. In Michigan X fleeces sales have been upwards of 200,000 pounds at 40 and firm at these prices. Medium and No. 1 Ohio and Pennsylvania have been selling at 45¢47 and have been in fair demand. Combing and delaine selections are sought after and are quite firm. The stock of fine delaine is very much reduced, all available lots having been bought up at 44¢46 for Michigan and Ohio. Fine Ohio is selling readily at the latter rate. Unwashed combing has been selling at 30¢31.

Territory wools are in demand, and all kinds of unwashed wools in fair request. Prices remain unchanged. Low and coarse selling at 15¢22; carpet, at 17¢18; Georgia 33; fine unwashed 25¢30, and medium 27¢32.

In California wools very little is doing and stocks are held above the views of buyers. Pulled wool is steady. Small stock and super has been selling at 35¢47, as to quality.

Foreign wools are quiet but stocks are light and held firm.

Sales of all kinds have been 1,800,000 pounds.

A. B. A.

Saratoga, N. Y., Aug. 19.—The American Bar Association to-day elected Clarkson N. Potter President. The Executive Committee consists of prominent men in the legal profession from all parts of the country.
